Heretic's Guide To Management Lulu.com

For much of the last century, large, predominantly US corporations used public relations to demonstrate that their missions resonated with dominant societal values. Through the construction and conveyance of the "corporate persona", they aimed to convince citizens that they share common aspirations - and moreover that their corporate "soul" works as a beneficent force in society. Through examining key examples from the last 80 years, this book argues that PR, through the corporate persona, works to create a sense of shared reality between the corporation and the average citizen. This has been instrumental in conveying, across generations, that the corporation is an affiliative corporate persona - a fellow companion in the journey of life. The construct is obviously ripe for manipulation, and the role of PR in creating and promoting the corporate persona in order to align corporations and stakeholders is potentially problematic. From wage inequality to climate change, preserving the corporate status quo may be negative. This original and thought-provoking book not only critically analyses how PR and its role in the corporate persona works to solidify power, but also how that power might be used to further goals shared by the corporation and the individual. Scholars and advanced students of public relations, organizational communications and communication studies will find this book a challenging and illuminating read.

George P. Mitchell Vintage

"An immersive, mildly gonzo and depressingly well-timed book about the drenching effects of global warming, and a powerful reminder that we can bury our heads in the sand about climate change for only so long before the sand itself disappears." (Jennifer Senior, New York Times) A New York Times Critics' Top Book of 2017One of Washington Post's 50 Notable Works of Nonfiction in 2017One of Booklist's Top 10 Science Books of 2017 What if Atlantis wasn't a myth, but an early precursor to a new age of great flooding? Across the globe, scientists and civilians alike are noticing rapidly rising sea levels, and higher and higher tides pushing more water directly into the places we live, from our most vibrant, historic cities to our last remaining traditional coastal villages. With each crack in the great ice sheets of the Arctic and Antarctica, and each tick upwards of Earth's thermometer, we are moving closer to the brink of broad disaster. By century's end, hundreds of millions of people will be retreating from the world's shores as our coasts become inundated and our landscapes transformed. From island nations to the world's major cities, coastal regions will disappear. Engineering projects to hold back the water are bold and may buy some time. Yet despite international efforts and tireless research, there is no permanent solution-no barriers to erect or walls to build-that will protect us in the end from the drowning of the world as we know it. The Water Will Come is the definitive account of the coming water, why and how this will happen, and what it will all mean. As he travels across twelve countries and reports from the front lines, acclaimed journalist Jeff Goodell employs fact, science, and first-person, on-the-ground journalism to show vivid scenes from what already is becoming a water world.

Superman's Not Coming Routledge

White women are one of the most influential demographics in America—we are the largest voting bloc, with purchasing power that exceeds anybody else's, and when we unify to demand change, we are a force to be reckoned with. Yet, so many of us sit idly on the sidelines, opting out of raising our hands to do, learn, and engage in ways that could make a difference. Why? White American women are no monolith. Yet, as Women's March national organizer Jenna Arnold has learned over the past few years criss-crossing the US in conversations with white women about their identity and role in the country, we do possess common characteristics—ones that get in the way of us becoming more engaged as citizens. We're so focused on checking off our to-do lists, or so afraid of getting it wrong, or so busy trying to avoid conflict, that we are actively avoiding the urgent conversations we need to have. We are confused about how we got here and unsure how to do better. Raising Our Hands is the reckoning cry for white women. It asks us to step up and join the new frontlines of the fight against complacency—in our homes, in our behaviors, and in our own minds. Consider Raising Our Hands your starting place, your "Intro to Being a White Woman in Today's World" freshman-year class. In these pages, Jenna peels back the history that's been kept out of textbooks and the cultural norms that are holding us back, so we can finally start really listening to marginalized voices and doing our part to promote progress. The American white woman is a powerful force—an essential participant—to mobilize alongside the rest of humanity on behalf of the world, and we can no longer make excuses for why we don't have time or don't know enough.

You're the Only One I Can Tell eBook Partnership

Anatomy of a Ghost is a careful dissection of many subjects on the paranormal. Find out what experts in the field really believe about ghosts and haunted locations. Beyond just spirits and ghostly phenomena, the book also covers man-made paranormal entities, the unexplained shadow people and the lore surrounding angels and demons. Looking for evidence that the soul survives bodily death? The chapter on After Death Communications and Near Death Experiences suggests that such experiences are universal and, in the case of After Death Communications, occur quite frequently. Included in the book are many of the first-hand experiences by the author and her colleagues. From the child ghost in Pennsylvania, to the demon in Dover. The book is laced with stories from people who have actually experienced the paranormal in their own lives.

The Quest for Streetcar Unionism in the Carolina Piedmont, 1919-1922 NAL

This warm, wise exploration of female friendship from the #1 New York Times bestselling author of You Just Don't Understand will help women lean into these powerful relationships. A WASHINGTON POST NOTABLE BOOK • "Celebrates friendship in its frustrations and its rewards and, above all, its

wonderful complexity."—The Atlantic Best friend, old friend, good friend, bff, college roommate, neighbor, workplace confidante: Women's friendships are a lifeline in times of trouble and a support system for daily life. A friend can be like a sister, daughter, mother, mentor, therapist, or confessor—or she can be all of these at once. She's seen you at your worst and celebrates you at your best. Figuring out what it means to be friends is, in the end, no less than figuring out how we connect to other people. In this illuminating and validating new book, #1 New York Times bestselling author Deborah Tannen deconstructs the ways women friends talk and how those ways can bring friends closer or pull them apart. From casual chatting to intimate confiding, from talking about problems to telling what you had for dinner, Tannen uncovers the patterns of communication and miscommunication that affect friendships at different points in our lives. She shows how even the best of friends—with the best intentions—can say the wrong thing, and how words can repair the damage done by words. Through Tannen's signature insight, humor, and ability to present pitch-perfect real-life dialogue, readers will see themselves and their friendships on every page. The book explains • the power of women friends who show empathy, give advice—or just listen • how women use talk to connect to friends—and to subtly compete • how "Fear of Being Left Out" and "Fear of Getting Kicked Out" can haunt women's friendships • how social media is reshaping communication and relationships Drawing on interviews with eighty women of diverse backgrounds, ranging in age from nine to ninety-seven, You're the Only One I Can Tell gets to the heart of women's friendships—how they work or fail, how they help or hurt, and how we can make them better. "At a time when the messages we give and get have so many more ways to be misconstrued and potentially damaging, a book that takes apart our language becomes almost vital to our survival as friends."—The Washington Post *Real Estate Record and Builders' Guide* Indiana University Press

Global Powers of Horror examines contemporary regimes of horror, into horror's intricacies, and into their deployment on and through human bodies and body parts. To track horror's work, what horror decomposes and, perhaps, recomposes, Debrix goes beyond the idea of the integrality and integrity of the human body and it brings the focus on parts, pieces, or fragments of bodies and lives. Looking at horror's production of bodily fragments, both against and beyond humanity, the book is also about horror's own attempt at re-forming or re-creating matter, from the perspective of post-human, non-human, and inhuman fragmentation. Through several contemporary instances of dismantling of human bodies and pulverization of body parts, this book makes several interrelated theoretical contributions. It works with contemporary post-(geo)political figures of horror—faces of concentration camp dwellers, body parts of victims of terror attacks, the outcome of suicide bombings, graphic reports of beheadings, re-compositions of melted and mingled remnants of non-human and human matter after 9/11—to challenge regimes of terror and security that seek to forcefully and ideologically reaffirm a biopolitics and thanatopolitics of human life in order to anchor today's often devastating deployments of the metaphysics of substance. Critically enabling one to see how security and terror form a (geo)political continuum of violent mobilization, utilization, and often destruction of human and non-human bodies and lives, this book will be of interest to graduates and scholars of bio politics, international relations and security studies.

Healing the Wounds of Childhood Wipf and Stock Publishers

Upon George Mitchell's death in 2013, The Economist proclaimed, "Few businesspeople have done as much to change the world as George Mitchell," a billionaire Texas oilman who defied the stereotypical swagger so identified with that industry. In George P. Mitchell: Fracking, Sustainability, and an Unorthodox Quest to Save the Planet, award-winning author Loren C. Steffy offers the first definitive biography of Mitchell, placing his life and legacy in a global context, from the significance of his discoveries to the lingering controversies they inspired. Mitchell will forever be known as "the father of fracking," but he didn't invent the drilling process; he perfected it and made it profitable, one of many varied ventures he pursued for years. Long before his company ever fracked a well, he pioneered sustainable development by creating The Woodlands, near Houston, one of the first and most successful master-planned communities. Its focus on environmental protection and livability redefined the American suburb. This apparent contradiction between his energy interests and environmental pursuits, which his son Todd dubbed "the Mitchell Paradox," was just one of many that defined Mitchell's life. Anyone who puts fuel in a tank or turns on a light switch has benefited from Mitchell's efforts. This compelling biography reveals Mitchell as a modern renaissance man who sought to make the world a better, more livable place, a man whose unbounded intellectual curiosity led him to support a wide range of interests in business, science, and philanthropy.

Mass Communication Springer

Transform your students into smart, savvy consumers of the media. Mass Communication: Living in a Media World (Ralph E. Hanson) provides students with comprehensive yet concise coverage of all aspects of mass media, along with insightful analysis, robust pedagogy, and fun, conversational writing. In every chapter of this bestselling text, students will explore the latest developments and current events that are rapidly changing the media landscape. This newly revised Sixth Edition is packed with contemporary examples, engaging infographics, and compelling stories about the ways mass media shape our lives. From start to finish, students will learn the media literacy principles and critical thinking skills they need to become savvy media consumers.

U.S. Department of Defense analyst Mark Silinsky reveals the origins of the Islamic State's sinister obsession with the Western world. Once considered a minor irritant in the international system, the Caliphate is now a dynamic and significant actor on the world's stage, boasting more than 30,000 foreign fighters from 86 countries. Recruits consist not only of Middle-Eastern-born citizens, but also a staggering number of "Blue-Eyed Jihadists," Westerners who leave their country to join the radical sect. Silinsky provides a detailed and chilling explanation of the appeal of the Islamic State and how those abroad become radicalized, while also analyzing the historical origins, inner workings, and horrific toll of the Caliphate. By documenting the true stories of men, women, and children whose lives have been destroyed by the radical group, Jihad and the West presents the human face of the thousands who have been kidnapped, raped, tortured, and murdered by the Islamic State, including Kayla Mueller, who was kidnapped, given to the Caliphate's leader as a sex slave, and ultimately killed.

Annual Report SAGE Publications

A high-yield board review and quick reference for Rehabilitation Medicine Rehabilitation Medicine Rapid Review is written primarily for Physical Medicine and Rehabilitation residents preparing for their board exams, and is also an excellent reference for practicing physicians who need a primer on this rapidly growing specialty. With content organized around the American board of Physical Medicine and Rehabilitation core curriculum, this powerful review is enhanced by more than 500 review questions and answers, and concise, bulleted, high-yield text. Readers will find quick answers to common and infrequent issues encountered in rehabilitation medicine

Public Relations and the Corporate Persona Cengage Learning

On September 11, 1857, a group of Paiute Indians brutally murdered some 120 men, women, and children traveling through a remote region of southwestern Utah. Within weeks, news of the atrocity spread across the United States. But it took until 1874—seventeen years later—before a grand jury finally issued indictments against nine of the perpetrators. Mountain Meadows Massacre chronicles the prolonged legal battle to gain justice for the victims. The editors of this two-volume collection of documents have combed public and private manuscript collections from across the United States to reconstruct the complex legal proceedings that occurred in the massacre's aftermath. This exhaustively researched compilation covers a nearly forty-year history of investigation and prosecution—from the first reports of the massacre to the dismissal of the last indictment in 1896. Of special importance in Volume 2 are the transcripts of legal proceedings against John D. Lee—many of which the editors have transcribed anew from the shorthand. The two trials against Lee led to his confession, conviction, and ultimately his execution on the massacre site in 1877, all documented in this volume. Historians have long debated the circumstances surrounding the Mountain Meadows Massacre, one of the most disturbing and controversial events in American history, and painful questions linger to this day. This invaluable, exhaustively researched collection allows readers the opportunity to form their own conclusions about the forces behind this dark moment in western U.S. history.

Annual Report University of Alberta

Ever since the courtroom doors closed in 1919, the tragic Charlotte Streetcar Strike has haunted the collective memory of the Carolina Piedmont region. During a season of labor unrest, it briefly made national headlines. Five men were killed and at least twelve others were wounded by gunfire during a demonstration against Southern Public Utilities, a subsidiary of James B. Duke's Southern Power. For many who lived afterward in North Carolina's "Queen City," the strike and riot were events better left forgotten, while, for later generations, the "Battle of the Barn" has become an item of curiosity. As the centennial approaches, this book represents the result of over ten years' worth of primary research about the Charlotte Streetcar Strike, a story that rightfully belongs to a larger narrative about the AFL's campaign to organize transportation workers among the textile mill towns of North and South Carolina. Prior to the 1919 Charlotte Strike, the national streetcar union had overcome fierce anti-labor sentiment, from South Carolina's state capital of Columbia to the Upcountry citadel of Spartanburg. To AFL organizers, Charlotte represented the last link in the Piedmont chain.

Made in Brooklyn McGraw Hill Professional

In the tradition of Theodore White's landmark books, the definitive look at how Donald J. Trump shocked the world to become president From Roger Stone, a New York Times bestselling author, longtime political adviser and friend to Donald Trump, and consummate Republican strategist, comes the first in-depth examination of how Trump's campaign tapped into the national mood to deliver a stunning victory that almost no one saw coming. In the early hours of November 9, 2016, one of the most contentious, polarizing, and vicious presidential races came to an abrupt and unexpected end when heavily favored presidential hopeful Hillary Clinton called Donald J. Trump to concede, shocking a nation that had, only hours before, given little credence to his chances. Donald Trump pulled the greatest upset in American political history despite a torrent of invective and dismissal of the mainstream media. Stone, a long time Trump retainer and confidant, gives us the inside story of how Donald Trump almost single-handedly harnessed discontent among "Forgotten Americans" despite running a guerrilla-style grass roots campaign to compete with the smooth running and free-spending Clinton political machine. From the start, Trump's campaign was unlike any seen on the national stage—combative, maverick, and fearless. Trump's nomination was the hostile takeover of the Republican party and a resounding repudiation of the failed leadership of both parties whose policies have brought America to the brink of financial collapse as well as endangering our national security. Here Stone outlines how Donald Trump skillfully ran as the anti-Open Borders candidate as well as a supporter of American sovereignty, and how he used the Globalist trade deals like NAFTA to win over three of ten Bernie Sanders supporters. The veteran adviser to Nixon, Reagan, and Trump charts the rise of the alt-conservative media and the end of the mainstream media monopoly on voter impacting information dissemination. This is an insider's view that includes studying opposition research into Bill, Hillary, and Chelsea Clinton's crimes, and the struggle by the Republican establishment to stop Trump and how they underestimated him. Stone chronicles Trump's triumph in three debates where he skillfully lowered expectation levels but skewered Mrs. Clinton for the corruption of the Clinton Foundation, her mishandling of government email, and her incompetence as Secretary of State. Stone gives us the inside word on Julian Assange, Wikileaks, Clinton campaign chief John Podesta, Huma Abedin, Anthony Weiner, Carlos Danger, Doug Band, Jeffery Epstein, and the efforts to hide the former first lady's infirmities and health problems. Stone dissects the phony narrative that Trump was in cahoots with Russian strongman Vladimir Putin or that the e-mails released by Wikileaks came from the Russians. The Making of the President 2016 reveals how Trump brilliantly picked at Hillary Clinton's weaknesses, particularly her reputation as a crooked insider, and ignited the passions of out-of-work white men and women from the rust belt and beyond, at a time when millions of Americans desperately wanted change. Stone also reveals how and why the mainstream media got it wrong, including how the polls were loaded and completely misunderstood who would vote. Stone's analysis is akin to Theodore H. White's seminal book The Making of the President 1960. It is both a sweeping analysis of the trends that elected Trump as well as the war stories of a hard-bitten political survivor who Donald Trump called "one tough cookie."
