Paris Match Tyndale House Publishers, Inc. Topology is a branch of pure mathematics that deals with the abstract relationships found in geometry and analysis. Written with the mature student in mind, Foundations of Topology, Second Edition, provides a user-friendly, clear, and concise introduction to this fascinating area of mathematics. The author introduces topics that are well motivated with thorough proofs that make them easy to follow. Historical comments are dispersed throughout the text, and exercises,

varying in degree of difficulty, are found at the end of each chapter. Foundations of Topology is an excellent text for teaching students how to develop the skill to write clear and precise proofs.

An ideal core text for introductory courses, *Medical Anthropology: A Biocultural Approach*, Second Edition, offers an accessible and contemporary overview of this rapidly expanding field. For each health issue examined in the text, the authors first present basic biological information on specific conditions and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives on how these issues are understood. *Medical Anthropology* considers how a biocultural approach can be applied to more effective prevention and treatment efforts and underscores

medical anthropology's potential to improve health around the world.

Science Focus Golden Books

A dark, engrossing, blood-drenched tale of the familiar threats to female power—and one girl's journey to regain it. Five starred reviews greeted this powerful story from Elana K. Arnold, author of the Printz Honor winner *Damsel*. You are alone in the woods, seen only by the unblinking yellow moon. Your hands are empty. You are nearly naked. And the wolf is angry. Since her grandmother became her caretaker when she was four years old, Bisou Martel has lived a quiet life in a little house in Seattle. She's kept mostly to herself. She's been good. But

then comes the night of homecoming, when she finds herself running for her life over roots and between trees, a fury of claws and teeth behind her. A wolf attacks. Bisou fights back. A new moon rises. And with it, questions. About the blood in Bisou's past, and on her hands as she stumbles home. About broken boys and vicious wolves. About girls lost in the woods—frightened, but not alone.

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as

told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.

Attuned to a world of
natural signs—the
stars, the winds, the
curl of ocean
swells—Polynesian
explorers navigated for
thousands of miles
without charts or
instruments. They
sailed against
prevailing winds and
currents aboard
powerful double
canoes to settle the
vast Pacific Ocean. And
they did this when
Greek mariners still
hugged the coast of an
inland sea, and Europe
was populated by
stone-age farmers. Yet
by the turn of the
twentieth century, this
story had been lost and

Polynesians had
become an oppressed
minority in their own
land. Then, in 1975, a
replica of an ancient
Hawaiian
canoe—Hōkūleʻa—was
launched to sail the
ancient star paths, and
help Hawaiians reclaim
pride in the
accomplishments of
their ancestors.
Hawaiki Rising tells this
story in the words of
the men and women
who created and sailed
aboard Hōkūleʻa. They
speak of growing up at
a time when their
Hawaiian culture was
in danger of extinction;
of their vision of sailing
ancestral sea-routes;
and of the
heartbreaking loss of
Eddie Aikau in a
courageous effort to
save his crewmates
when Hōkūleʻa
capsized in a raging
storm. We join a young

Hawaiian, Nainoa Thompson, as he rediscovers the ancient star signs that guided his ancestors, navigates Hōkūle'a to Tahiti, and becomes the first Hawaiian to find distant landfall without charts or instruments in a thousand years.

Hawaiki Rising is the saga of an astonishing revival of indigenous culture by voyagers who took hold of the old story and sailed deep into their ancestral past.

Rebecca Rusch is one
of the great endurance
athletes of our time.
Known today as the
Queen of Pain for her
perseverance as a
relentlessly fast
runner, paddler, and
mountain bike racer,
Rusch was a normal kid
from Chicago who
abandoned a
predictable life for one
of adventure. In her
new book Rusch to
Glory: Adventure, Risk
& Triumph on the Path
Less Traveled, Rusch

weaves her fascinating
life's story among the
exotic locales and
extreme conditions
that forged an
extraordinary athlete
from ordinary roots.
Rusch has run the
gauntlet of endurance
sports over her career
as a professional
athlete-- climbing,
adventure racing,
whitewater rafting,
cross-country skiing,
and mountain biking--
racking up world
championships along
the way. But while she
might seem like just
another superhuman
playing out a fistful of
aces, her empowering
story proves that
anyone can rise above
self-doubt and find
their true potential.
First turning heads
with her rock climbing
and paddling skills,
Rusch soon found
herself spearheading

adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment

when most athletes walk away. Rusch to Glory is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

(Teenage Mutant Ninja Turtles)

A textbook for an advanced undergraduate course in which Zipfel (aerospace engineering, U. of Florida) introduces the fundamentals of an approach to, or step in, design that has become a field in and of itself. The first part assumes an introductory course in dynamics, and the second some specialized knowledge in subsystem technologies.

Practicing engineers in the aerospace industry, he suggests, should be able to cover the material without a tutor. Rather than include a disk, he has made supplementary

material available on the Internet.

"Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP

Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."-- Foreword.
