The award-winning Book 2 has been carefully designed to be versatile, so that it can be used after any beginning band method book. Each of the six key-based units (beginning with B-flat major) opens with a foundation page to be used throughout the unit, which includes scales, arpeggios, finger exercises, a flexibility exercise, and trills. Next, a new rhythm pattern is introduced using our "fill in the note value" approach to ensure correct understanding and execution. This method of teaching has been highly successful, especially

with students who have had difficulty learning new rhythms. Each unit provides much systematic review so that the students can master the new rhythms and techniques. Often students learn to play a rhythm pattern in a piece, but cannot sight read that same rhythm in a new piece. This is like teaching students by rote to read "The Cat in the Hat" and then having to start all over when they pick up "Are You My Mother?" Our goal is that the students will quickly become excellent sight readers. Other features in this 97-page book include an abundance of duets and rounds, theory projects, transposition exercises, and composition pages. One of the most unique

features of this method is the inclusion of the many composition projects which allow the students to be creative and "think outside the box" but, at the same time, to teach the basic concepts of music theory. Parameters are given as guidelines, and then "the sky's the limit!" After two years of sorting through thousands of melodies, only those that would both systematically help students to master new techniques and make students excited about practicing made it into the book.

Now Hear This, Student Book 1 Alfred Music Tune In is the first volume of All These Years—a highly-anticipated, groundbreaking biographical trilogy by

the world's leading Beatles historian. Mark Lewisohn uses his unprecedented archival access and hundreds of new interviews to construct the full story of the lives and work of John Lennon, Paul McCartney, George Harrison, and Ringo Starr. Ten years in the making, *Tune In* takes the Beatles from before their childhoods through the final hour of 1962—when, with breakthrough success just days away, they stand on the cusp of a whole new kind of fame and celebrity. They've one hit record ("Love Me Do") behind them and the next ("Please Please Me") primed for release, their first album session is booked, and America is clear on the horizon. This is the

lesser-known Beatles story—the pre-Fab years of Liverpool and Hamburg—and in many respects the most absorbing and incredible period of them all. Here is the complete and true account of their family lives, childhoods, teenage years and their infatuation with American music, here is the riveting narrative of their unforgettable days and nights in the Cavern Club, their laughs, larks and adventures when they could move about freely, before fame closed in. For those who've never read a Beatles book before, this is the place to discover the young men behind the icons. For those who think they know John, Paul, George, and Ringo, it's time to press the Reset

button and tune into the real story, the lasting word.

In this book the pupil is carefully taken step by step through the second and fourth positions. The pupil is taught to find each finger, after which simple shifts are introduced with the same finger, followed by shifts to these positions with different fingers. Each type of shift is presented and developed with interesting melodies.

The Second and Fourth Position String Builder is to be used after the Third and Fifth Position String Builder.

However, it is also to be used as a continuation of Book III of any of the standard string class methods.

Basic Fiddlers

Philharmonic: Old-Time Fiddle Tunes is

absolutely perfect for introducing fiddling to your youngest string players. Eleven tunes from the old-time American fiddling tradition are presented first in a simplified, "basic" version of the tune printed with note names in the note heads. Following the Philharmonic format, the tune is then presented in an "advanced," but still accessible version of the tune. Several options for simple back-ups and very basic improvisation tips are provided for each instrument. Basic Fiddlers Philharmonic keeps each version on its own staff to avoid confusing young

readers and lyrics are included where applicable. The accompaniment CD features recordings of both versions as well as a back-up track for play-along at home or in class.

Anything that was just "okay" has been replaced with kid tested exciting pieces. There are many new duets and since students love trills we've included many more. These trills have transformed boring octave exercises into motivating pieces such as Half Pipe Stunts, Trampoline Tricks, and Bungee Jumping A's. Other new favorites include the Yankee Doodle Theme and Variations, The Sad Singing Swan, and the Daring Detective.
